The Main purpose of Hydrolog is to log your company's test data electronically. Hydrolog Version 3.0 allows you to sort your data in the following ways:

- * Test Time
- * Date
- * Week
- * Month
- * Year
- * Serial Number
- * Customer
- * Size
- * Unit of Pressure
- * DOT Rating
- * Date of Manufacture
- * Disposition
- * Manufacturer
- * Plus Rating
- * Star Rating

Reports are very useful to find the data you need. Your company information is displayed on the top right hand corner. Clicking the "E - Mail" Button will open you default mail program, allowing you to email a report.

You can change the file to a: Adobe(pdf), Excel(xls), Word(doc), or a Rich Text(rtf) Format by clicking the drop down arrow next to the file type text box shown below.
