

Cylinder Stamping

Features:

- Comes with Numbers 0-9 and + *
- New dates and symbols can be impacted into a cylinder without smashing your fingers or splitting dies.
- By rotating the stamp slowly, the rapid beats (3200 beats per minute) drives the die into the cylinder or cylinder collar without denting the cylinder or the cylinder collar.
- Within 30 seconds you have a new legible date that doesn't fade away when you clean the paint off the cylinder.
- Low Stress gun stamps available
- 1/4" Character gun kit P/N 68-11-0231
- 3/8" Character gun kit P/N 68-11-0226
- Custom stamps can be ordered as well.

RIN stamp 68-11-0209

Gun Operation Video [***See Video***](#)

Specifications:

- New dates and symbols can be stamped on cylinders with 1/4 inch or 3/8 inch letters as required by D.O.T.
- Only requires 60# of air pressure to impact the new information onto the cylinder.
