

HDD-8RB Heavy Duty Cylinder Drier

Shown With Digital Option

Dimensions: 122" L x 18" W x 78" H
Electrical: 30 Amps @ 220 Volts, 3 Phase 50/60 Hz
Blower Motor: 1.28 HP, 1125 Watt, Brushless, 105 CFM
Heater Elements: 8 KW, Thermostat Controlled,
Drier Tubes: 1/2" OD x 0.025 Wall x 57 3/4" Long, Quick-Connect

Features:

- HDD driers feature a thermostatically controlled 8KW heating element.
- 5 Checked Ports and 3 Un-Checked
- A 1.28 HP (1125 watt) brushless regenerative blower motor moves hot air through each cylinder at 105 CFM.
- The brushless motor provides quiet, maintenance free operation without the need to periodically replace worn brushes.
- The blower assembly features a convenient 110 Volt outlet to operate the Galiso Opti-Lite for timely inspection of cylinders.
- The HDD driers are thermally insulated to assure maximum heating efficiency.
- HDD driers are shipped partially assembled with easy-to-follow set-up instructions.
